**RESOLUTION TITLE (limited to 5 words):** Social Security - Count on It!

**BE IT RESOLVED THAT:** *(Please print or attach your resolution here. Be concise and use everyday language.)*

The Minneapolis DFL Senior Caucus go on record in support of the Social Security 2100 Act authored by Congressman John Larson that proposes changes to raise the cap (and eventually eliminate the cap) on contributions; and

The Social Security 2100 Act makes structural changes in how the Social Security payment and subsequent adjustments are determined.

*You may add a brief explanation or your two or three strongest supportive points here.*

The Social Security Trust Fund will be depleted in 2032 unless changes are made to the structure of the income stream into the plan.

The current structure of the Social Security payment plan is not responsive to the needs of future recipients due, in part, to structural deficiencies in the plan design such as capping the income that Social Security premiums are paid on.

The current structure uses a Consumer Price Index that does not accurately reflect the real costs-of-living experienced by retired citizens.
